"Emergency"

I gotta go, I need to do, I wish I could
They have to be, it's time I did, why don't you ?
Emergency

It's now or never, hurry up, get out of here
Dos and don'ts, where is my, gotta run, emergency

Give me a rainbow and I'll take you to the sky
Give me a rainbow and I'll show you how to fly

Give me a rainbow and stop the race
And we'll dance in the face of life

Late and tired, scared to death, I'm on the leave
Life is short, don't you don't, I want it now, emergency

Move it up, get me to, you'll get caught
You can't it's not allowed, it's time for hate and fire
Emer-Emergency.
