Where all the colors are
Ocean
The silent ocean knows
Your face
Your reality
Haven't been the same, lately
Wonder could it be, a lack of devotion?
Seeing in monochrome
Who taught you emotions?
Who taught you emotions?
Feel
Can you feel?
Might be why colors disappear

The place we call our soul
Ocean
The cyber ocean sees
Your dreams
Your totality
Nothing stays the same
Someday
I hope you will make more lasting connections
Feeling in monochrome
Who taught you emotions?
Who taught you emotions?
See
Can you see?
Colors that the ocean offers
Be
Can you be?
Something more than black, white, and gray
Being in monochrome
Who taught you emotions?
Who taught you emotions?
Who taught you emotions?
Who taught you emotions?
Who taught you emotions?
