You know I love you, baby, please don't go, well, well;
You know I love you, baby, please don't go.
Oh, you know I love you, honey child,
There's nothing that I wouldn't do for you right now.
You know I love you, baby, please don't go, well, well.

You know I need you, honey, please don't go, well, well;
You know I love you, baby, please don't go.
And you know I love you, honey child,
There's nothing that I wouldn't do for you right now.
You know I love you, baby, please don't go.

You know I want you, honey, please don't go, well;
You know I want you, baby, please don't go,
You know I love you, honey child,

There's nothing that I wouldn't do for you right now.
You know I love you, baby, please don't go, well.

Honey!

Well,
Well, you know I want you, honey, please don't go,
You know I want you, honey, please don't go,
You know I want you, honey child,
There's nothing that I wouldn't do for you right now.
I know I want you, honey, please don't go.
