Goodbye, goodbye, goodbye, my love
It's time to say goodbye
Remember me for the fun we had
Remember me for our love

Be proud that we loved and loved so well
Don't listen to people who speak from Hell
Tears, yes, but let's not be too sad
Let's hope it won't be all that bad

Goodbye, goodbye, goodbye, my love
I guess, it's goodbye
The rivers may flow and the trees may grow
But it's not the same without you

You said, "Life isn't so bad after all"
Keep living for us two
The sun goes up and the moon fades away
But it's not the same without you

Tears, yes, but don't be too sad
Let's hope it won't be all that bad
Goodbye, goodbye, goodbye, my love
It's time to say goodbye
