Translated from Japanese

Let's have a dream, let's have a dream,
No matter how hard it is, let's survive another day.
I want to climb the sphinx under the moon.
Let's have a dream, let's have a dream.

Let's love each other, let's love each other,
No matter how we struggle, we die tomorrow.
I want to caress the New York skyline
And love each other, love each other.

Let's forgive each other, forgive each other,
No matter how we have each other, it's a life that ends
tomorrow.
Let's watch the water of the Seine pass by
And let's forgive each other, forgive each other.

Wanna love each other,
Wanna hold each other,
Wanna forgive each other,
Wanna meet, wanna meet, wanna meet,
Love, love, love, love,
I miss you!

Let's have a dream, let's have a dream,
No matter how hard it is, let's survive another day.
I wanna be blown by the willow in Ginza.
Let's have a dream, let's have a dream.

I want to be immersed in the green of Japan
Let's have a dream, let's have a dream.

Wanna love each other,
Wanna hold each other,
Wanna forgive each other,
Wanna meet, wanna meet, wanna meet,
Love, love, love, love,
I miss you!
