Dream a little dream of you  
With your golden hair and your eyes so blue  
Like a song Tchikovski played  
That makes me come on slowly

Your raven hair that makes me mad  
It's your insane smile that makes me glad  
It's the California dreamin'  
And the Mississippi smile  
That makes me come on slowly

Trying to be real cool and soft  
So I won't take a chance of turning you off  
Watchin' how you're operating when the chips are down  
That makes me come on slowly

It isn't that I wanna wanna make it all come true  
Baby if I had a chance to be in love with you  
Watchin' how you're operating when the chips are down  
That makes me come on slowly
