### "Our Generation"

Visit "[Our Generation](#)" on MotoLyrics.com

Someone in the city  
Gets a piece of paper  
Someone in the bush  
Holds the law in their hands

Last chance for freedom  
In our generation  
We're not the only people  
In our generation

Cultures fuse in a global nation  
Human rights for indigenous peoples  
Learning life's lessons of old  
You can't take it away  
From our generation  
Last chance for freedom  
For our generation

In our generation  
It's our generation...

Sending a message of hope  
To the world  
Love sees no colour  
In everyone

In our generation  
It's our generation
