"Stop That"

Visit "[Stop That](#)" on MotoLyrics.com

Everyone is happy, people feeling good.
Dancing in the town and on the street in my
neighbourhood.
So we walk outside take a little ride down to the beach
on a low tide,
And watch the sun come up.
Complicated situations outright war in many nations.
Gotta stop that. Gotta stop that.
Yeah and the garbage that's left behind, industry,
religion and crime.
Gotta stop that oh we gotta stop that.

Aahhh ah ah ah la la la la la lala la la
Yakka diyandubala - yakka yallala, yakka diuangubala -
yakka yallala

Move into the future who knows what we get.
Hundred dollars richer or a million dollars debt.
Were we at a party.
Was it just a dream?
All the worlds around us and nothing in between.
With a love like that the planets stood still and
whispered, in my ear
You'd better stop that you'd better stop that.
Yeah don't look now they're doin't it again.
The trees have disappeared.
Gotta stop that gotta stop that.
Right now.
