1st

I don't know why you sleep all the time.
I have no room, see you real soon.
I'm out of places to call my own, my own.

Chorus

I don't know why you sleep all the time

2nd

I should have known you fell away from it all
I had no clue you were so blue
You're out of places to call your own, your own.

Chorus

Bridge

Come back to me
Where do we dream
Come back to me
Where do we dream

3rd

I saw you sad, why is it bad?
Don't slip away, come back today
I got a place here to call our own, our own

Chorus
