1st

Some days I bend submerged in sin, I'm looking for all
the right answers.

Your response came slow, with nothing to show, I wish
you would move a bit faster.

Don't break apart if I leave you behind
It's not my fault, it's just not our time.

Chorus

Don't hold me down, don't hold me down so I can fall.
Don't hold me down, don't hold me down so I can fall
back to you.

Fall back to you

Fall back to you

2nd

We had our chance to make amends but you never
wanted to hear me.

I saw your soul, I saw your smile, But your eyes were
looking right through me

If I were strong I would escape.

Then I would come back would it be too late?

Chorus

Bridge

I wish you would find yourself

I hope you find yourself in this world of insanity

I hope you find yourself in this world of insanity

I hope you find yourself in this world.

Chorus2x

Don't let me go, please God don't let me go
