One last word
One last teardrop fall
One last mistake
One burning heart

Do you know what to do?
Do you know what to fear?

Everything we ever learned
And everything we ever taught
There is no more hand in hand
There is not just one last final stand

We bite the hand that feed us
No one will ever need us
Maybe everything has been a lie

Up in the heaven, just sit there and watch
Everything that we have done wrong
As you will drop that final bomb to the earth
Yes we deserve to be blown away

One last kiss
One last embrace
One last goodbye
One last dying soul

Do you know what to do?
Do you know what to fear?

The conclusion of all this
The destruction of our race
We never learn, we never will
We are the ones that you can kill

We bite the hand that feed us
No one will ever need us
Maybe everything has been a lie

Up in the heaven, just sit there and watch
Everything that we have done wrong

(Drop the bomb)
As you will drop that final bomb to the earth
Yes we deserve to be blown away

We bite the hand that feed us
No one will ever need us
Maybe everything has been a lie

Up in the heaven, just sit there and watch
Everything that we have done wrong
(Drop the bomb)
As you will drop that final bomb to the earth
Yes we deserve to be blown away
Up in the heaven, just sit there and watch
Everything that we have done wrong
(Drop the bomb)
As you will drop that final bomb to the earth
Yes we deserve to be blown away
Up in the heaven, just sit there and watch
Everything that we have done wrong
(Drop the bomb)
As you will drop that final bomb to the earth
Yes we deserve to be blown away
