There was a time  
When you were so close to me  
It all has been fine  
Two hearts' indignity

But in the still of the night  
You have disappeared  
The moon it shone so bright  
So much I have to fear

Fight the tears of sorrow  
Not an endless fight  
There is no tomorrow  
When love is forced to hide

But in the still of the night  
You have disappeared  
The moon it shone so bright  
So much I have to fear

Fight the tears of sorrow  
Not an endless fight  
There is no tomorrow  
When love is forced to hide  
[2x]

Fight the tears of sorrow  
Not an endless fight  
There is no tomorrow  
When love is forced to hide  
[4x]
