I feel that now it is inside my brain
Don't know why but it makes me insane
Something evil has now entered my life
Don't know why but it cuts like a knife

Agony inside my mind
Now will go on and kill you

Don't visit the chains
They are not to blame
It's just a relief
For this pain all the time
Don't talk to my parents
They don't even know
I'm here alone
In my torture room
Ooh

I try to run but it's too late to escape
I'm hearing voices I can never explain
Their rules bother me though they are my idols
I have to follow though it makes me suffer

Could be if I let it out now
It can come straight into you

Don't visit the chains
They are not to blame
It's just a relief
For this pain all the time
Don't talk to my parents
They don't even know
I'm here alone
In my torture room
Ooh
