You fooling around
with my feelings
has spin to hard at me
Just listen to my voice
and got something nice
So say do you know
And got something nice
So say do you know

You wanna love me
You wanna hold me
and you want to touch me
But just when you feel like to
And not when I want to

In this film
That's no fun
To play the part
Of a missy queen, pussy cat, sweetie, honey, treasure,
darling, sugar comb

I don't no anymore what you do
When I'm not standing next to you
Maybe that seems someone else
Who guesses seem already then I do (???)

Bunny I used to be near you
When you told me 'bout all the things we were gonna
do
When you told me 'bout all the things we were gonna
do
Not today but maybe tomorrow I fill with you the up
time
Not today but maybe tomorrow I fill with you the up
time (??)
Not today

So you should stop and think about a while that, Baby, I
need more of time
Stop and think about a while that, Baby, I need more of
time
Stop and think about a while that, Baby I need more of

time
Stop

I believe there's much today
That can't seem that the things to change are gonna go
You're gonna feel horrible

When I'm gone

When I'm gone

Then you can go nowhere I swear
You can go nowhere without searching for my face
wishing I would be there

Then you can go nowhere a swear
You can go nowhere without searching for my face
wishing
