Yeah It's lil dj, dj boes, young blunt & my homie
seacclipse let's GO!

[Chorus:]

Young Blunt (Young Blunt)

Listen:

I was in so many love relationships, They never last
long (they never last long)

I need to get you off of my chest so I can become
strong (become strong)

A strong guy like when I first started writeing some
songs (some songs)

You broke my heart into pieces and I started crying all
night long (YEA-YEA-YEA)

So then the next day I started to think... Maybe we
should go our own ways Then I started
To think to my self... I might meet the right chick for me
someday

Your saying that your in love with me but your makeing
it up like it's some play...

I use to have fun with you, We use to smoke, drink &
eat sundays

I hate the way our lifes are going, G** DAMN IT,
nothing will be the same

I hate the way that love is pain & when I wake up I don't
hear you screaming my name

SO then I realize that I can take it all back, there's got to
be some way

I'll do anything for you, as long as you got a smile up
on your face

Why don't we go back to our relationship & you start to
obey?

But you won't do anything for me, nothing will be great
But HEY were still on the same page, Whatever, I'll take
you back in my past

If you don't know what happen with me and my
realtionships then I'll replay:

[Chorus]

Lil DJ (Lil DJ)

YEAH:

Life goes on girl we can't live our lifes like this (we can't live our lifes like this)

I mean something has got to happen I mean come on girl we both know it (know it)

We both know that we broke up, I mean we still get a-little credit (a-little credit)

For the stuff that has happen between me & you (HA-HA)_YEAH!

I know me & you have gone through a-little rough time after all these years girl (girl)

That's why we should go our own ways cause were in totally differen't worlds (worlds)

I'm just sitting here thinking about you but I don't wanna cause everytime I do (do)

Then it feels like I'm gonna hurrel-

I just want our lifes to pass us by... I just fall in the bed crying with my head down asking the question, why? - Why does it have to be like this? Cause we fight alot, it's just you & I

Fighting everynight, I close the door & your back inside Your trying to get back with me & your doing that by telling lies

We fought so much & it hurts so bad, it feels like I wanna commit cuicide & die (cuicide & die)

It hurts from the heart & your leaveing me, just by saying bye

You made me cry almost everynight by cheating on me with this other guy- I mean

DAMN GIRL, if you don't believe me then I'll take you back in time (HU-HUH)

[Chorus]

Seacclipse (Seacclipse)

Aye (whoof)

My life got busy, A n**** started makeing moves In the industry saying boy you know you gotta show' Em proof

Gets your s*** crackin (crackin) We can't do it for ya (for ya)

Makin a name for your south so ppl know ya

So that's what I did I hit the block hard

Started selling c.d's up & down a bulivard (bulivard)

Came with the heat (heat) Respect in the streets
(streets)
Now a n**** always spittin flames on his beats

Plus wreckin all the shows, tearing up the stage (whoof)
Man it wasn't really enough to do it all day (all day)
Everything was good I couldn't complain
Became the F***** kang of the city where it rain

But there's just one problem, The time I was putting in
I delected to spend time with my girlfriend (yup)
And now I'd never get her back man she's gone
I miss my baby girl, Yeah I love her but like this song
(LIFE GOES ON!)

[Chorus]

YUP (WHOOF) Seacclipse, Lil' DJ, Young Blunt (SALT LAKE
