Niggas be like na man it aint like that.

[Verse 1]

Look up it's a full moon the sound of the winds blowin,
And you don't know you bout to get killed but i been
knowing,

The nights still young i mind as well come ?round
midnight,

Just me all by my lonely my homies gon sit tight,

Im walking with a glock and just a lil bit of gas money,

But bet i come back wha what them niggas done snatch
from me?

My crip and blood thugs wanna get witcha,

They mad at me cause im tellin them it's personal
nigga,

I wanna see,

If this mothafucka want it with me,

So on three,

Ima hop up out this SUV,

If you around ima feel like you down wit em,

Just as soon as this round hit em,

You lay in the ground wit em,

Awaken by satan go bein carried by the lord,

What ya life costs bill gates couldnt even afford,

Aint nothin that can stop repercussions if i die,

This aint nothin to do with dr. dre motha fucka?

Just you and i

[Chorus]

I don't need 10 niggas with me,

I don't run and go get the police(i will do it myself)

You know me, ima mothafuckin g,
If it's beef bitch nigga we?ll see(i will do it myself)

Let em hate homie you know where i be,
You done seen me get down on tv(i will do it myself)

And i brought the whole unit with me,
But they already know how i be(i will do it myself)

[Verse 2]

In the beggining i was humble,
Just thankful for makin it out the jungle,
Ive never ever said nuttin on this mic i didn't want to,
Ima soldier and as soon as 50 give me a mission,
I mark my enemies territory then play my position(llets
go!)

And homie know me even that nigga that's wearin ya
chain,

See we both from the south but homie we aint the
same,

And i remain in the same fuckin project buldings,
I got guns everywhere bullet holes in the ceiling,
My adrenaline pumpin,

Got this 12 gauge dumpin out the back of this cutless if
i get hit up then fuck it,(yeaaaa)

The reepa comin so don't look back just keep running,
Tell 50 for this hit i don't need nothin you owe me one,
Now show me sunny where he be at,
That's all i need to know,

You can go,
Ima be back,

Any other time i probably would of asked banks to ride,
But this aint nothin to do with g-unit nigga..just you and
i

[Chorus]

I don't need 10 niggas with me,
I don't run and go get the police(i will do it myself)

You know me, ima mothafuckin g,
If it's beef bitch nigga well see(i will do it myself)

Let em hate homie you know where i be,
You done seen me get down on tv(i will do it myself)

And i brought the whole unit with me,
But they already know how i be(i will do it myself)
