The way she talk, talk, talk
She hit that talk, talk, talk
Then she get low, low, low
Then she get low, low, low
I see you over there with that man
And you know that I'm hatin'
But you ain't got to be cock-blockn' on me

'Cus she, she's so real
'Cus she, she's so real
Lil' mama, yeah you so, so real [x2]

The way she bring it up, down, then low
Hit the ground, touch the floor, how low can you go
Never been fake, lil' mama so real
Seen her from the back and she was poppin' them pills
Lil' mama can you get on like this
Lil' mama can you show me how you get
Lil' mama do like the game I spit
And do you like the way I kiss you on your lips
She so good with them apple bottom jeans
And I'm lookin' so clean, she can join my team
If she ever need me I'm a be there for her
And if she want that, she can get it right ther'
I'm a pimp, I'm a mack
But I'nt choose that, I can give up for you
Girl, I'm dressed in all black
And If you need me, then call on me anytime you want
it
And baby girl I beat it up, and guaranteed I'm on it
Lil' mama so what

The way she talk
The way she move
The way she feel
The way she feel, lil' mama so real
The way she feel, lil' mama so real
Lil' mama so real [x3]
Yeah she's so real

She's so real, lil' mama never fake
She like to push weight, she really got cakes

Seen her from the day, treat her like her birthday
And lil' mama fine, even on her worse day
Seen it from the back and she was shakin that crack
And everybody know me, I was born as a mack
You can get it like that, if you want it then you want it
And if I'm all up on yo date then guaranteed I jump on it
And lil' mama so hot and you not
Mess with her you gon get shot
And I'nt really care cause she rep my block
And lil' mama you know I'll give it up for you
And I'm a be there for you
I'm a die for you, and I'm a cry for you
And if I can't die, I cry for you
I'm gon ride for you and baby girl I will sly for you

The way she talk
The way she walk
The way she groove
The way she move
Lil' mama so real, so real
Lil' mama so real [x3]

The way she talk, talk, talk
She hit that talk, talk, talk
Then she get low, low, low
Then she get low, low, low
I see you over there with that man
And you know that I'm hatin'
But you ain't got to be cock-blockn' on me
