Ricki-lee:

Happening all over again
I was such a fool
To think that you would
Ever change your ways
Even put your hand
Upon your heart and
Said that no one else
Could take my place

Paulini:

How was I so blind
I trusted every single
Word you said I
Know I should've seen
The light but I just let
Your love go to
My head

Emily:

I've taken you back before
cos you told me you
Changed looked in my eyes
And said

Chorus:

Believe me then you
Broke my heart and
Deceived me when you said you
never could leave me but it's
Happening all over again
No! No! No!

Kate:

I promise to myself I
Never make the same mistakes again
And though I love someone else
I never really want to walk away

Emily:

It seems that your just the same

I forgot all the pain looked in your eyes
you said

Chorusx2
Believe me then you
Broke my heart and
Deceived me when you said you
never could leave me but it's
Happening all over again
No! No! No!

Paulini:
It seems that your just the same
I forgot all the pain looked in your eyes
You said

Chorusx4
Believe me then you
Broke my heart and
Deceived me when you said you
never could leave me but it's
Happening all over again
No! No! No!
