My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room

My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
*** the feds, let 'em be mad
I been the boss ***, I'm suppose to brag, hey

My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
*** the feds, let 'em be mad
I been the boss ***, I'm suppose to brag, hey

When I was small I seen mama in the freezer
With a ice cream jug worth more than the visa
She used to hide the money in the ceiling
Having stacks on deck now that's a mighty good feelin'

*** the days, I'm gettin' paid by da hour
Been in the wood to long for da *** to go sour
When da feen come, I'ma give 'em what
Da want the definition of customize, now put that in yo'
trunk

If I ain't got g's I'ma get it from the streets
Leavin' A.V.E's offa zone three
On da corner with da g's, that's how it's gon' be
My whole family in hood, surrounds gotta eat

Gotta dough connect that charge me end of the bred
And my studio engineerin' cut da chop from da stack
My pockets is fat and my daughters is too
Just think of all the thousands of dollars we run through

My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
*** the feds, let 'em be mad
I been the boss ***, I'm suppose to brag, hey

My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
*** the feds, let 'em be mad
I been the boss ***, I'm suppose to brag, hey

I'm goin' ten a *** da feds tried to injure me
A *** told Scrappy and he told me dat they into me
Know I drank Remy, they know I rid 23's
Know I let my screen fall when I be in DC

Think 'cause I'm on B.E.T dat I ain't neva seen a key
I was sellin' break down back when dey made lean on
me
Now I got dat bling on me, 12 carat ring on me
Yellow black charge, r dats my waffle house machinery

Feds come and see dem clips like da diamonds in my
ear
Hate 'cause I pop Christal open just like you pop a beer
Straight drop vodka here, choppa here, hoppa here
Gator guts ain't in the insent but I bet dat ostrich is

Show you how to prosper quick flip a brick, flip it quick
Stick a move we ain't got no time for dat silly **
Show you how to prosper quick flip a brick, flip it quick
Stick a move we ain't got no time for dat silly *** Dro

I've been a made man I say da word and you'll get
touched up
Keep talkin' *** ***, I'll have yo' whole click hushed up
See me split a guard, that's probably bubble crish
crushed up
I'ma pimp, I'ma gangsta first and foremost I'ma hustler

See Hagon all about his money, y'all don't get it do ya
Tell me what ya need and I got people that can give it
to ya
I wasn't really hand to hand, I was more a trafficka
Getcha cush from Cali or some diamonds from Africa

You akin new good but I been grindin' for a minute now

You can get it wit me but I'ma get it any how
Bo Scrap and Dro out here tryin' to get dis money now
These otha *** out here ackin' scary like dey in a
haunted house

Just keep playin' wit it but it ain't a game, ain't a thang
Grab da thang and send da fellas brains like 'em dana
dan
Dro be watch I lean on me and I'll be watchin' purple
rain
Scrap let's count dis hundred keg go and pop some
purple thangs

My phone is tapped and so is my living room
We can't hide the money here, we need a bigger room
*** the feds, let 'em be mad
I been the boss ***, I'm suppose to brag, hey

My phone is tapped and so is my living room
