... on my whip, that how you feel
Take my bitch then meet the... that how you feel
Diamonds everywhere sparkling, that how you feel
Fire that gas up... that how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel

40 autos on my whip, that how I feel
Take your bitch upon a trip, that how I feel
Try me and I flip the script, that how I feel
My coop... like a creep, that how I feel
Your broad dying it give me head, that how she feel
I was born to get the checks, that how I live
Water fountain in the crib, that how I feel
The hoes bouncing off the pills, that hoe they feel
Wanna smoke the weed like a hobo, that how I feel
Everythinag still polo, that how it is
I kill a nigga like jason, that how I feel
Plus I feel like racing, that how I feel, go

Take my bitch then meet the... that how you feel
Diamonds everywhere sparkling, that how you feel
Fire that gas up... that how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel

Time I tie my shoes
I be tripping, taking tumble classes,
Tumble classes? what

I be flipping like a pregnant broad
Bitch you doing? truly
I be spitting, took my bird walk
I'm buying chicken
This ain't the same benz? mine different
It's a whip... and the kitchen, I ain't lying,
Think I am stalked
Ask your girl... ask your cousin... bout my bindess
1000 on the dinner, tell them boys been there
... stuffing 14 grams in a swisher
You better watch your girl on that... I might kiss her

... on my whip, that how you feel
Take my bitch then meet the... that how you feel
Diamonds everywhere sparkling, that how you feel
Fire that gas up... that how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
How you feel, how you feel, how you feel
That how you feel
