

Young Galaxy "Peripheral Visionaries"

Visit "[Peripheral Visionaries](#)" on MotoLyrics.com

We inhabit both creature and fool
Seeing is nothing sacred
We inhabit both creature and fool
Seeing is nothing sacred
It's the peripheral way, it's the peripheral way
It's the peripheral way, it's the peripheral way

Ohhh...

We exist in more than time and space
Keeping a written mythology
We exist in more than time and space
Keeping a written mythology
It's the peripheral way, it's the peripheral way
It's the peripheral way, it's the peripheral way

Ohhh...

We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
We have seen tears from the eyes of God
And God loves, and God loves
