When you kiss me
I fall into a deep trance
And when you leave me
I'm waiting for my next chance

To be closer
Can never be a mistake
And when you're in my bed
I know I'm gonna stay awake

Uuh
So just hold me close to your body
(Hold me close to your body)
Make me completely happy
Yeah

The whole world
Is spinnin' 'round you
Die die d-die die d-d-d-die
I die in your eyes tonight

A few words can make a sound
Die die d-die die d-d-d-die
I die in your eyes tonight

Nothing feels sweeter
Than tippin' in my swimmingpool
Oh come in deeper
Let's gettin' hot
Up in a waterschool

You're making waves
I'm drippin' wet on mind
Your special in my face
Uh, I like the way you cry

So just hold me close to your body
(Hold me close to your body)
Make me completely happy
Yeah

The whole world
Is spinning 'round you
Die die d-die die d-d-d-die
I die in your eyes tonight

A few words can make a sound
Die die d-die die d-d-d-die
Die die d-die die d-d-d-die

Die die d-die die d-d-d-die x3

If loving you is wrong
I never want to be right
I'm giving you this song
If you ask me I'll be yours tonight

If loving you is wrong
I never want to be right
I'm giving you this song
If you ask me I'll be yours tonight

Die die d-die die d-d-d-die
I die in your arms tonight

A few words can make a sound (make a sound)
Die die d-die die d-d-d-die
I die in your arms tonight
