"Noahs Ark"

Visit "[Noahs Ark](#)" on MotoLyrics.com

Noahs ark can't save us all
Binary against the squall
And in it's wake
Good men will fall
And finally we can move on

We have so much to answer for
We asked for help to start this war

Can we forgive
The things we've done
Take our things
And move along

Safe and sound
Can we abstain
From looking to that ark again

And at our end
We find ourselves
No closer to heaven
No closer to hell

Can we forgive
The things we've done
Take our things
And move along
