

## Young Heretics "The Lost Loves"

Visit "[The Lost Loves](#)" on [MotoLyrics.com](https://MotoLyrics.com)

What happened to all the love  
That got left behind  
By the bodies who made the love  
But who could not withstand time

Who's counting up the nights  
Where love got pushed aside  
Oh the lovers loose the daylight  
When there is nowhere safe to hide

The harder we fight  
The violent it seems  
We are not too young to die  
But we are all too vain to see

That we are the lost loves  
And we are the lost loves

That happened to all the loves  
That got left behind  
By the bodies who made the love  
But who could not withstand time

Coz we are the lost loves  
And we are the lost loves  
And we are the lost loves  
And we are the lost loves
