[Hook]

Heard it's popping at the spot, time to get right
Called up my dog tell him get right
Called up them broad tell them get right
Popping bottles till we fall, let's get right
Heard it's popping at the spot, time to get right
Called up my dog tell him get right
Called up them broad tell them get right
Time to fuck till we fall, let's get right
Let's get right, let's get right, let's get right
Let's get right, let's get right, let's get right

Erybody's switching up sides, who can you trust
Believe what you wanna believe, what's to discuss
I'm the type of nigga to throw you the whip and ride
the bus
And still get a nigga my last enough is enough, huh?
Bad bitch with me and she makes break
Let her ride the dick like a 10 speed
They told me turn up, so I changed gear
They know me in this motherfucker like ?
Hood nigga, yeah and I'm living mature
Go and fuck the hood know I've made it
The whole fucking block know I've saved ya
Your old fucking folks know I've raised ya
See I've keep it 100 from the fucking start
Call me Mel Gibson, got a braveheart
See they money get low when they get tight
Homie go with the game, nigga get right

[Hook]

Heard it's popping at the spot, time to get right

Time to fuck till we fall, let's get right
Stunting these hoes, ain't stunting these niggas
Hey, spark is on the way yeah we blowing these figures
Keep it coming, we gonn do it all night
Got the whole hood with me, we about to get right

So now you ain't fucking with me, that's how you feel

Like I was ever fucking with you, get for real
And I ain't talk what for who, nigga for real
Said you claiming that you put niggas on, get you a

Acting like rico from belly, that's what you doing
Homie don't really know what it is, what you pursuing
But fuck around nigga with young will get you ruined
