All I need in this world you see
is me and my nine-milli.

Don't Act silly
or else I'll spin you around with the trey-pound.
Put a few holes in your neck with the tech.

While ya'll niggas was chillen at the mall
I was perfecting my
writing and rhyiming skills and now I'm a star

Only time I came outside was to hit the block.
Slinging a little weed.
Trying not to get caught by the cops.

Niggas comin at my neck.
Don't make me spray you wih the Uzi
blood pouring out and now you swearing it's a movie.

So I'll give you a clip.
I got two fifths on my hip
with two clips for each one.
What you think son?

Your wifey probably think I'm the best.
She keep swearing I the sun cause it look like the solar
system
on my chest.

Why don't you hop off my dick, huh?
That's all I need from you.
Now all I need from the world is to know that Scrap's
through.
