I ruled the world
From my dark hill
Where everybody loved their king
There wasn't pain
The blood never touched the ground
From that day...

But I was sure
That one day
Something would have changed
The human kind
Has never been strong enough

And it seems like
The sky has fallen
Every certainty is lost...
Now I'm watching my kingdom
Burning in the fire of love
I can't
Control it anymore
I'm too scared to face that truth

- Now I know
The real king's inside my chest
And I'm gonna quit this war...

- Not hiding
Or pretending anymore

And it seems like
The sky has fallen
Every certainty is lost...
Now I'm watching my kingdom
Burning in the fire of love
I can't
Control it anymore
I'm too scared to face that truth

Why should I close the gates of my heart...?
Letting it become a stone...
How could I see through my thick window?
All the good things of this worldÂ...

And it seems like
The sky has fallen
Every certainty is lost...
Now I'm watching my kingdom
Burning in the fire of love
I can't
Control it anymore
I'm too scared to face that truth

(falling down, now it's lost
Burning on, I'm too scared)

I'm too scared to face that truth
