I don't even lye try to coming do the fool
I'm in love with this girl since middle school
Blonde hair
My boy .. it was a lover
Had a little bother name..

But it was cool late night uncut
But her uncle was on drogs
In was heavy on dead
I miss my uncle Matt
Heavy was cool man
In was like a fight old dude man
You know what I'm seeing
You told me a lie too
But you know
Never be ashamed with who you are man
I need you
Yee
Listen Well
It was a grupy man show us videos games and movies
She had a big boody
Dam I can't like she was a beauty
True stories
She know that I want her
I was a nigga with an attitude
When I see her around the street with another dude
Man I was the lider in my old school
Really I was dude
I guess I was a ..
Underground to get a round
Looking at the hips makes me wanna hop
She use to like poetry I wander what stopped
She fall in love with one boy that is hot
I was hot I was hot
I love I love
Dam
Girl I need you
I start to say something to her and she don't even
understanding a word
What happened to you ?
I love you

I got crazy for you
I need you
Man listen
When we was kids we got always our relatives
And I swer it was positive
Or for another shit
Two years later my cousin B. was shot
A year after favorite cousin Poop
Dam I miss him
A big pan on a special one
He has a smaller son
I know
I love you
I need you
It was like those are crazy cause
They see our uncles and cousin like
A people like
I was scarried
But I was there although
I was listening to a G.
I was always dead
I was happy to know this girl
I love her
You may love her too
We all know her
