Here is the one that called out your name:
Where have you gone tonight?
I'll follow you, but then I'll not get back home
Here is the one that called out your name:
Where have you gone tonight?
I'll follow you, but then I'll not get back home

Can't turn it off
Here is the one that called out your name:

Fault
Do not adjust
Do not adjust
There is a fault

But here is the one that called out your name:
Do not adjust
Do not adjust

Soulce my teacher and they took it for granted

"Agh!"

Where have you gone, change me for, where have
you?
