When you finally open your eyes to see what lies ahead
It never was as bright to you, but now things are
different.

I hope you see that I'm still trying as hard as I can
Because it means more to me than you'll ever
understand

Take your time and figure out what to say
I promise I'll stay yet another day
I just can't shake these thoughts of you and I
Running barefoot as the rain comes down
Acting careless like we own this town
We're holding hands in thunderstorms
Living like we'll never die

Just slow it down we've got the whole world all to
ourselves
And these long summer nights will last forever
We've got the world to ourselves
The choice is yours to make the best of your situation
And now....

It's time for sneaking out "You've got me
going down
The nights are longer
Our hearts beat faster
Tell me you feel it too.
