[Being in a world which doesn't accept us as human beings we are obliged to]  
[riposte, making a plunge into misanthropy. Now and till the great change we]  
[will be: hater of mankind.]

Rupture with a dominate world  
Decision to forget their eminent spoken words  
Starvation on the human race  
Beyond soul sins phosphorated

Lived by hate end was near  
We shan't accept this living in tear  
Death isn't the only way  
Consecrated God in heaven: "Let them disobey"

[chorus]  
Hater of mankind  
Faith in the human genocide  
Misanthropic outrance  
Alteration of human race

Gulped dow all those atrocities  
Vivisection, gaz chambers, decadence and diseases  
Repression of incultured minds  
I'm searching an escape from the human kind

[chorus]

Follow my path, walk behind me  
Conjunctural difformity  
Obstructed conflict with colored skin  
Racism exposure induce on my medecine
