Verse 1

When we met I was a shy kinda girl,
I had no worries,
not a care in the world,
You take me places I would never have dreamed,
And now I'm losing all control so it seems,
I'm so glad I found you

Chorus

I can hardly get to sleep,
You're in my mind it's getting deep,
That first stage clue,
I'm crazy for you,
When feelings start to show,
When my body tells me so,
I know it's true,
It's beginning to feel like,
Beginning to feel like love,
Like the sun on my skin on a hot summer day,
Like a song in my head that won't go away,
Like a smile on my face coz you make me happy,
Ohhhh

Verse 2

Everyday feels special just like the first,
You caught me by suprise,
I thought love would hurt,
I'm ready for whatever you got to give,
And I'm not looking back no more I wanna live,
And I'm so glad I found you

Chorus

Bridge

Baby now I'm loving you
(I love)
I know what I gotta do,
There ain't no life here without you,
I'll build my whole world around you,
So now I make you a promise,
Stay true be faithful and honest,
Let's take this journey together,

For worse or for better

Chorus repeat to end

Outro 3x

Can't run can't hide feels right how I'm loving you
