So you're coming to my house OK (So) (so)
Tell me if you're gonna stay
If you feel you can't resist my ways (So)
Say what you got to say
Let's be forward as we cut the chase
Tonight we go all the way
Do you want to get busy
And you know I'm feeling jiggy
Cos tonight we're gonna play

No point in waiting for you to call
2 hours straight no word at all
Time to get down for the physical
Been so long can't wait no more

Don't be shy we can get it on
So give it up cos the night is young
You can't be trippin' when I'm feeling this strong
And you can't deny that you dream of me every day

Got to keep in going so we get, hot
Forget about the clock so we don't, stop
You got to keep it coming
Be a man and make a stand
Lose control

I know you think you're ready but I think not
So come a little closer and guess what
I'm gonna tell you when you hit the spot
Tonight it's on

So you're coming to my house OK (So)
Tell me if you're gonna stay
If you feel you can't resist my ways (So)
Say what you got to say
Let's be forward as we cut the chase
Tonight we go all the way
Do you wanna get busy
And you know I'm feeling jiggy
Cos tonight we're gonna play

How's it feel tell me what's the deal

No need for lies got to keep it real
Took so long why'd you hesitate
That's why we're hooking up so late

If I didn't bother to step to you
You'd be out first base wouldn't have a clue
I bet you're glad that we be getting it on
I gave you the feeling and hope that you're here to stay

Got to keep in going so we get, hot
Forget about the clock so we don't, stop
You got to keep it coming
Be a man and make a stand
Lose control

I know you think you're ready but I think not
So come a little closer and guess what
I'm gonna tell you when you hit the spot
Tonight it's on

So you're coming to my house OK (So)
Tell me if you're gonna stay
If you feel you can't resist my ways (So)
Say what you got to say
Let's be forward as we cut the chase
Tonight we go all the way
Do you wanna get busy
And you know I'm feeling jiggy
Cos tonight we're gonna play [3x]

All I want to say
Is that I won't forget you
Or the way I step to you
Memories can fade
But in my mind you'll always stay
Just lay with me and make it last forever

(So you're coming to my house)
So you're coming to my house OK (So)
Tell me if you're gonna stay
If you feel you can't resist my ways (So)
Say what you got to say
Let's be forward as we cut the chase
Tonight we go all the way
Do you wanna get busy
And you know I'm feeling jiggy
Cos tonight we're gonna play [3x]
