I love the people that want me dead  
cause they all been wrong  
and they all been down  
and the faith I believe is drowned.

I like to live without a sense of control  
cause sin and failure seems more  
it's the way to feel home  
and the faith I believe is drowned.

It's better when you're not here  
I think it's better always  
you're always thinking 'bout  
the way you control.

It's better when you're not here  
I think it's better always  
you're always thinking 'bout  
the way you control.

Know where your father is.  
Know where it started.  
Everything is gone.  
Everything is sold.

Know where your father is.  
Know where it started.  
Everything is gone.  
Everything is sold
