It's up next somehow we found it  
it's making waves out of my reach  
i cant explain this breeze i feel  
its something that we'll have to take x2

chorus

it's almost over you can tell  
whatever need its all too late  
it's almost over you can tell  
whatever plea its all too late

he's tryin' hard to stay away  
the sourest breeze is all he takes  
whatever comes around stays in  
a bad advice is all we take x2

chorus

it's almost over you can tell  
whatever need its all too late  
it's almost over all your pain  
whatever plea its all too late
