You're a coward kinda shameless
crawlin upstairs just to reach the downstairs
accelerate your breath give away your fears
i guess its just the way to be
you're a coward must have felt it
hurry hurry come on idiot fuck it up
you rolled over pushing away your fate
i can smell your fear i can smell it

CHORUS

don't wanna take your time
don't wanna take your life
don't want you all around
don't wanna take your time

you're a loser kinda spotless
surrealistic matters turned aggressive
pick up pieces from your past
guess i could've been a lot more patient
you are wasted sorta idiot
took away the dreams we all have planted
go away now go away now
i guess you are the other one again

CHORUS

ahhhh
