solitary face, schizophrenic waves, lucky no one hears  
me  
now i've got you near, i think you're really here, i guess  
it doesn't matter  
wicked all the time, lonely without mine, i can't believe  
you're really here  
do you have a pulse? i know you have a heart, but  
which way does that blood flow?

whispering sweet nothings  
and nothing's sweetest whispered

such a lovely voice, an even sweeter laugh, all this  
really matters  
loved it all the time, laughing with my wife, such a  
lonely state of affairs  
are you really with me? or did i wave goodbye to  
sanity?

i'm so sick and tired of wasting out, as the years go by,  
they'll slow me down  
and time grows colder, my heart's on fire, and not the  
kind that you read about  
so no more of these deep and dark secrets, if you're  
not here i'm not alive  
and this whole time has been a lie

are you me? am i you? am i even speaking?  
so sick and polite, i'd give my life for just one more  
night  
so take my crazy hand, and we'll be insane together

i'm so sick and tired of wasting out, as the years go by,  
they'll slow me down  
and time grows colder, my heart's on fire, and not the  
kind that you read about  
so no more of these deep and dark secrets, if you're  
not here i'm not alive  
so no more of these deep and dark secrets, you're  
really here, you're really mine  
well no more of these deep and dark secrets

no more, no
