Yellow moon  
Face of the prophet  
Shooting star  
Light up the heavens  
Shine down, shine down  
On our tiny enterprise  
Where do we go when al our time's been wasted  
Just keeping score on who is right or wrong  
There's no reason

CHORUS:

Follow the road, the road that leads us  
Where the healing waters flow  
Where do we go when the world forsakes us  
Where the healing waters flow

Silent god  
Moving in my heart  
Telling me  
Not much I understand  
But I, but I need to know  
So I fight on  
Where every beast must feed upon the other  
When will the loin lie down with the lamb  
There's no reason

CHORUS
