Even though you're leaving me, can you feel me last  
more time?  
Take my cold, cold hand and just hold, hold, hold.  
Please just look inside of me, please just give me one  
last kiss  
Before that glowing light goes on.....

And when I felt your pretty face  
All I felt was blood and rain  
And I knew that we both felt  
Something far worse than pain

So I'll walk there by myself  
And I'll light the candles alone  
And I'll feel my lungs get cold, cold, cold.  
But I'll stay right here darling  
And I'll croon this sad, sad song  
'till your back here in my arms.

And when I looked into your grave  
That's when I saw 6 feet of rain  
And I swear I heard you again  
Dying and whispering my name.  
I Swear I'll come here everyday  
I will pray by the candle light  
That you'll be back smoking with me  
Giving me a warm kiss goodnight  
Oh Oh Oh Oh Oh, Oh Oh Oh Oh Oh

And when I looked into your grave  
That's when I Saw 6 feet of rain  
And I swear I heard you again  
Dying and whispering my name  
I swear I'll come here everyday  
I will Pray by the candle light  
That you'll be back smoking with me  
And giving me a warm kiss goodnight.  
Oh, the way you made me die  
The night you said "good-bye"  
Just your breath is all it takes  
And I feel my blue hands shake.  
I'll remember every time you laughed,

And I'll remember all the times we had  
But I know you'll leave me here  
All alone, dead, crying and sad
