Is this a world of strangers
A cold and cruel life
Or can I call this place my home
I'll step into the danger
If only for one night
I can't keep living all alone
This time you could be my only one
This time we've gotta take a chance
'Cause you and I are

CHORUS:

Partners in crime
Caught between what's right and wrong
We're two of a kind
Partners in crime
When you think you can't go on
You'll reach out and find
Together we survive

I can't control the anger
These feelings deep inside
It makes my body feel so cold
I've searched too many places
Too many desperate nights
I need someone like you to hold
This time you could be my only one
This time we've gotta take a chance
'Cause you and I are

CHORUS
