

Yu-Gi-Oh "Ahead Of The Game"

Visit "[Ahead Of The Game](#)" on MotoLyrics.com

Not so fast, you think you've won?
I'm here to say we're far from done!
Just you wait and then you'll see
The games not over it's up to me

Cause I am ahead of the game
And nothing will be the same!

I create the games we play
Every detail is mine to say
you have luck, you might have skill
but when you lose you'll say that I have the will!

Cause I am ahead of the game
and nothing will be the same!

All my technology, all my smarts
My creativity will rip you apart!
My Liquidity, Giant bell and chic
All my secrets, hey! I don't even cheat!

Cause I am ahead of the game(when we're standin'
face to face)
And nothing will be the same(when I put you in your
place)

Cause I am ahead of the game(every detail on my
mind)
and nothing will be the same(you can lay it on the line!)

Cause I am ahead of the game
and nothing will be the same(oh, when I put you in your
place)

Cause I am ahead of the game
and nothing will be the same.....
