When I'm feeling small
When it's cold outside
I don't know who I should believe
And when I needed someone special
Just by my side
Who was there?
When I'm feeling old
When it's rain outside
I don't know who is holding me
And when I need a little kind and tender moment
Who's with me?

I believe someday I will love
Someone who's by my side
Oh someday
My special one will come alone
I'll pray everyday

When I'm lost inside
When I'm down and out
I don't know who I should recall
And when I needed someone precious
Just by my side
No one there no one was there

I believe someday I will love
Someone who's by my side
Oh someday
My special one will come alone
I'll pray everyday

Someday I will love
Oh someday oh someday
I keep on praying everyday
