"Off The Wall"

You wanna see it after all
You wanna leave it off the wall
Off the wall try to figure out you're such a drag
You're dressed up like a piggy bank
Through the night diamonds out
Christmas light cruising like a pimp
Anytime in your golden car you're such a drag
You snort like the world will fall today
I must say you're a lucky man
You wanna see it after all
You wanna leave it off the wall
You wanna see it after all
You wanna leave it off the wall
You wanna see it after all
You wanna leave it off the wall
After all try to figure out you're such a drag
You're made of all those shitty tales
Through the day work and pay
No more guy you don't need a lie
Off the wall like a smoking gun without excuse
You cry like world will fall today
I must say you're a lover but you never try
To feel life can find another way
You wanna see it after all
You wanna leave it off the wall
You wanna see it after all
You wanna leave it off the wall
I think your life must try to find another way (x12)
