Boy, do you know what you're really askin' me for?
If you don't then you need to make sure
You really know what you want
'Cause I got somethin' for ya

Just blow ya mind
Make you wanna go back in time
An' fill me up, all over again
Getcha higher than that twenty, twen-twenty, yeah

I got enough goods to feed the whole world
I got more riches than diamonds an' pearls
So for me to get witcha, you need to come get it
Come get it, baby

I got that shit everybody wanna hit
But what I got, not just anybody can get
If you wanna feel the real, you need to come get it
Come get it, baby

I got the truth
Taste my pudding an' you'll find the proof
It's more for me 'cause I get to choose
Who wanna get some of that mmm mmm too?

An' it tastes as good as it looks
You can rock it in the 'burbs or in any hood
Give you that glow, like you from Hollywood
So if you want it, take it now, don't be wishin' you could
later

I got enough goods to feed the whole world
I got more riches than diamonds an' pearls
So for me to get witcha, you need to come get it
Come get it, baby

I got that shit everybody wanna hit
But what I got, not just anybody can get
If you wanna feel the real, you need to come get it
Come get it, baby

I ain't got no need to front, I know what I want

An' I'm comin' to get it, Yummy don't even stunt
When you hear that European horn, go to the front
It's me blowin' that black thing, blowin' a blunt

An' I ain't just anybody, I'm somebody
An' I don't be at all of 'em, ma, just some parties
So that train of thought that you got, get rid of it
'Cause me hittin' it is somewhat of a privilege

That ain't real beef I'm in, that's frivolous
Not from D.C., but I'll show you what a Wizard is
Talkin' like you got somethin' wet
Action is louder than words an' I ain't felt nothin' yet

The huggin' an' the kissin' is cool
But honestly, I'm 'bout ready to take a dip in the pool
You done did it, put your money where your mouth is
An' come wit it an' I'ma come get it

I got enough goods to feed the whole world
I got more riches than diamonds an' pearls
So for me to get witcha, you need to come get it
Come get it, baby

I got that shit everybody wanna hit
But what I got, not just anybody can get
If you wanna feel the real, you need to come get it
Come get it, baby

I got enough goods to feed the whole world
I got more riches than diamonds an' pearls
So for me to get witcha, you need to come get it
Come get it, baby

I got that shit everybody wanna hit
But what I got, not just anybody can get
If you wanna feel the real, you need to come get it
Come get it, baby
