I went to go school
motherfuckers blocked a nigger
Boosie just wanted me to be in a video
He wanted to give me a dollar
Inside these people wanted to still video
Without paying me a dime
Man I was hungry starving
I needed that cake
I needed that cheddar
I needed that glory
Instead these fuckers blocked it

chorus

Theres a God and he gave me brothers
I dont even have to fight these haters
My brothers do it for me using their music
This shit even makes my haters put their seat up
So now I got labels chasing me down wanting to sign
me
I been signed though to young money for years
been the first lady
now its just gonna be official
For real for real now
Its gonna be official
for real for real now
Its gonna be official
So what can the haters say now
I think nothing cuz I raise the bars
