i'm gonna ride out this love wave

breaking in my mind

CAROLINE

calling out loud i say wait

i want to know where i'm going

is it too late

for my love to be ever showing

is it too late

for my love to be ever growing

is it too late

hold it

CAROLINE i'm fading i'm fading i'm fading i'm fading
away from love

hold it

CAROLINE i'm breaking i'm breaking i'm breaking away
from love

is it having the pain that doubles the heart

or is it having the heart that doubles the pain

all the signs say its having the heart

yes its having the heart that doubles the pain
