'Cross the river where the water is lower
There's a plan of makin money you just have to wait
Crazy Robin Hood is coming soon
Killed three children or four in the fall
Revolutionary
He was jailed he was fair
Have you ever heard his magic words
Don't change your way
Of burying golds
Night and day I prayied
My only ghosts
So I went to the place in which they used to sleep
But all the goblins came
Left the sewer for a day or two
No mention was just made of itas i get sick
Diggin'for the tunnel to the moon
A few clusters made the governament lie
And it is so scary
He was jailed he was fair
Have you ever seen him dealing corn
Don't change your way
Of burying golds
Night and day I prayied
My only ghosts
So I went to the place in which they used to sleep
But all the goblins came
