#### "Let's Go"

Let's go (go go go go go go go go go)

Let's go (go go go go go go go go go)

Let's go (go go go)

Let's go (go go go)

Let's go

Everybody in the place come on

We got the ball let's take it home

When the whistle blows I'm in the zone

I got a competition on this microphone

Just give me the ball and I'll take it home

When they can't catch me cause their way too slow

You already know

Every time I hit the field I put on a show

But it's easy to cause I'm a pro

Everybody get up on your feet let's go

*[Chorus:]*

Let's go (go go go)

Let's go (go go go)

Let's go

Everybody in the place come on

We got the ball let's take it home

Let's go (go go go)

Let's go (go go go)

Let's go

Everybody in the place come on

We got the ball let's take it home *[x2]*

*[Chorus]*

The crowd's goin wild

And I can't help but notice

But I gotta keep playing

Gotta stay focused

All the cheerleaders just waved

I thought I told you girls I gotta concentrate

Hold up, wait

Ref blows the whistle

There's a girl in the front row that I gotta get to

Hey here's my number and my name  
We should hang  
But first I gotta get back to the game

*[Chorus]*

Should I fake right  
Take the ball left  
Or should I stop and let the other team catch their  
breath  
Cause it's a little to easy  
I can't stop now  
Cause the whole team needs me  
Believe me  
I'm two steps ahead of the game  
On top with my status can never be changed  
Now I know you're having fun  
Stand up  
Watch close  
Let me show you how it's done

*[Chorus]*

Put your hands up  
And if you really feel it  
Come on stand up  
Stand up  
Stand up  
Put your hands up  
And if you really feel it  
Come on stand up  
Stand up  
Stand up

*[Chorus x2]*
