Three its the magic number
Yes it is
Its the magic number
Because two times three is six
And three times six is eighteen
And the eighteen letter in the Alphabet is R
We got three Rs
Were going to talk about today
We got to learn to reduce, reuse, recycle
Reduce, reuse, recycle
Reduce, reuse, recycle
Reduce, reuse, recycle
Because 3
And am saying three!
Three, six, nine, twelve, fifteen, eighteen, twenty one,
twenty four, twenty seven{three!} thirty, thirty
three, {three!}
