Being made of stone will make you strong
I've been alone for oh so long
And there you were, a silent mind
Beauty that I thought I'd never find

Something strange is happening
And I don't know what to do
I haven't felt my heart beating over ninety years

I love the way you look at me
When you're thinking no one else can see
I feel like someone different when you're near

So sleep now, and hold me tight
Everything will be alright
Just lay down and rest your weary eyes
Calm down, you're safe with me
I love you more than you can see
You need your rest, and so I wrote you this
Lullaby

Lullaby

Could someone who has a soul
Have such a hard time staying in control?
Eternity can wait a while
I'll miss the way you blush when you smile

Something strange is happening
And I don't know what to do
I haven't felt my heart beating over ninety years

I love the way you look at me
When you're thinking no one else can see
I feel like someone different when you're near

So sleep now, and hold me tight
Everything will be alright
Just lay down and rest your weary eyes
Calm down, you're safe with me
I love you more than you can see

You need your rest and so I wrote you this
